WHAT IS THE PURPOSE?

Academia, industry, not-for-profits, foundations, private investors and government must work together to move scientific discoveries to practical applications. The 3rd Annual Academic & Industry Intersection Conference seeks to profile successful collaborations as well as examine how to navigate the commercialization process.

WHAT WILL BE DISCUSSED?

The program will include panelists discussing the challenges and successes of commercializing new technologies.

The program also will feature an announcement of a **new state-wide pilot award** sponsored by the Georgia Research Alliance.

Presented By

Atlanta Clinical
& Translational
Science Institute
